San Francisco, August 28. The United States Government formally charged today the freighter Mary Luckenbach was operated in a "careless, reckless and negligent" manner when it rammed and sank the hospital ship Benevolence.

Government attorneys. In surprise move, filed a US\$14,000, 000 damage suit ugainst the Luckenbach Steamship Company. They swung into action while two investigutions were still in progress, seeking to place the blume for the disaster on Friday night in which at least 18 persons were killed. Thirteen persons were unaccounted for,

Basing their action on statements made by some of the 492 survivors of the marine disaster. the Federal attorneys contended that the Mary Luckenbach was making too much speed and moving up the wrong side of the channel in a pea-soup fog. They also claimed she was not using her radar when she knifed into the port side of the great white hospital slip four miles from the Golden Gate.

In the suit, filed in the Federal District Court, the attorneys said the Mary Luckenbach's captain. L.C. Smith, was guilty of "careless, reckless and nealigent navigation and - operation.''---United Press.

AMERICAN ECONOM IMPRESSIONS OF

A paper entitled "The impressions of a very well-known American economist on Britain," in which the writer describes Britain's economic position today and its possibilities in the future, was read at the Rotary Club luncheon at the Roof Gardon yesterday by Rotarian D. S. Hill.

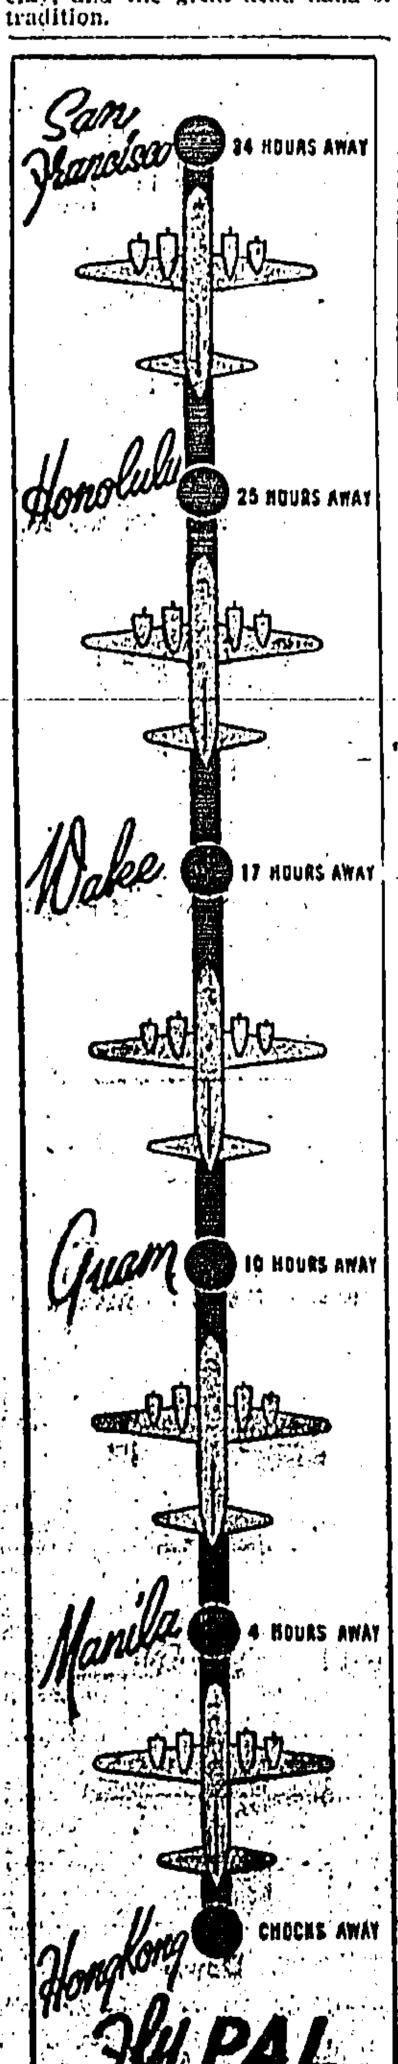

The author of the paper, whose name was not revealed, sald that Britain and the United States were an unbeatable combination and between them had the answer to Communism.

Malik puts Formosa on the agenda

Lake Success, August 28. Jacob Malik, Russian delogate to the United Nations and Prosident of the Security Council for (August, tonight summoned the Security Council to meet on Tuesday and put the explosive question of Formosa on its agenda.

This was disclosed after a scoret meeting of the 11-nation Council, in which Mr. Malik tried to read out of the official record all actions which the group had taken during the 29-week Boylet boyoott which ended on August 1.

Mr. Malik's action in placing the issue of Formesa officially on the Council's order of business was a cortain indication, in the minds of most observers, that Russig would demand that the United Nations order the United States to withdraw Its Seventh Fleet from Formosan waters .-- United Press.

KREMLIN EXPECTED TO SHOW ITS HAND KOREA DISPUTE

Washington, August 29. State Department officials believe that the Korean struggle has now entered the critical period they have long expected in which the Kromlin

must disclose its real intentions for the future. . This belief, officials said, is borne out both by American military estimates that the battle line is fairly well stabilised and by intelligence reports indicating a massing of two Chinese Communist armies on the Manchurian-Korean border.

The significance of the stiffening battlefront, diplomats said, is that the men in the Kremlin must now know beyond question that North Korean Red forces unaided by Russian or Chinese troops are doomed to defeat. They face the prospect that in a relatively few months United Nations armies may be driving into North Korea.

The reported Chinese United States into a police movements is regarded here as an indication that the Communists tensified in connection with have decided what their next major move is to be and are getting set to make it.

It does not necessarily mean they will enter the war. At one extreme, a fateful new Red step might mean involving troops might result in building a barrier Korean war from spilling over pipeline from the Kirkum oil-

most probably, they may occupy Northern Korea in an affort to prevent UN forces from crossing the 38th Parallel and moving in close to Manchuria and the Russian port of Viadivostock.

Second, being confronted with the prospect of a North Korean defeat, they may make an effort to settle the fighting in some manner acceptable both to Russia and to the West. The biggest pressure in favour of this is probably propaganda pressure. Alien Communist occupation of Northern Korea, splitting the country, would show up badly against Communist claims of interest in

unifying the country. Third, they may send armed forces into the fight on the side of the North Koreans in open de-The courier, Senor Oscar Mon- flance of the United Nations and tero, was said to have been ar- | complete disregard of the way in | rested on descending from a plane | which other nations in Asia and |

-Anxious-to-avoid general war

Most officials here believe that Russians are still anxious to avold moves which might lead to a general war.

There is also constant speculation in Washington that the Chinese Communists, with economic and political troubles of their own, must be resisting any Soviet pressure to get them to take on the burden of the fight.

Hence official Washington general believes that the Russians and the Chinese will take some measure short of open belligerency but designed to keep United States forces from moving too close to Manchuria and the Russian Maritime Provinces.

The most obvious way to do that is to re-occupy Northern Such a development greatly complicate the question of how to solve the Korean problem permanently but would appear to minimise the dangers of more general fighting at this time.—Associated Press.

CHARGES NORTH KOREA

Lake Success, August 28. The Communist government of North Korea today charged that American bombers had killed nearly 6,000 Korean civillans in "atrocity" raids.

The propaganda |blast was recelved at United Nations Headquarters on the heels of a strong protest by Communist China against "United States air aggression" in the Chinese territory of Manchuria.

The reports arrived as the members of the Security Council met in a secret session to discus: the review of the Council's wa since July 1949, which must be presented to the General Assembly next month.

The North Korean accusation was highlighted by the claim th U.S. Air Force bombers had used one-ton bombs in their strategle raids. The report, signed by the North Korean Foreign Minister, Pak Neung Young, said onetonners were among the misslier. dropped "on residential areas o Vonsan" in July

HK RESTRICTIONS ON EXPORTS TO CHINA

London, August 28. the advice of the British Government, the authorities in Hong Kong are to take additional safeguards against the export of strategic war materials to Communist China, official sources said today.

The Hong Kong Government was said to have already taken steps toward restricting the export of materials which were classified as "directly for war use" and it was undertood that these restrictions were to be widened considerably to include some 200 items.

Mr. Winston Churchill's disclosure that Britain has been supplying machine tools for war purposes to Russia has spotlighted Britain's efforts to promote trade with Communist China.

During the past six months Communist agents were known to be in Hong Kong buying strategic commodities and machinery much of which was said to be suitable war production, including machine tools and metal working

Official quarters said the tightening up of the licensing system for exports from Hong Kong to Communist China should ensure that commodities classifled as "strategie" would reach Communist China in such quantities as would eliminate the danger of their use as war potential.

VITAL LANCS

London, August 28. The all-important County Championship game between Surrey and Lancashire is favouring Surrey, who collected the vital four points for a first innings lead today.

As there may not be a definite result with only one day remaining, those points would have been invaluable to Lancashire, who finish their programme with this game, whereas Surrey have one match to play and, even with no result tomorrow, can still tie for the Championship by winning that final fixture.

Yachting notes:

Race for Singapore Trophy to be sailed this afternoon

By, "MOONRAKER"

Today being Liberation Day, a race for the Singapore Trophy is to be sailed in Dinghies for the Cup presented by members of the Royal Singapore Yacht Club who recently raced in Hong Kong.

The race is timed to start at 3 p.m.

Redwing races seen for quite while took place on Saturday afternoon.

This started in a very light Lreeze and Worsley made an excellent start in the Gunner Boat, For most of the first lap Corbett led the way, closely followed by Colonel Brown and Howell but Mallorie, who was some distance behind, made up to third pince by the end of the lap.

Overtaken on the beat In the course 'lot the second lap, the wind freshened very

slightly and Howell gained firs! place for some time, but was overtaken by Furrer on the beat. These two subsequently became so engaged in a luffing

maten that Miss Pat Loseby slipped straight through them to a very good win-Sunday was given up to cruising and there were no organised 3rd Mallory races. Many boats set forth towurds Lyemun with a streng ebb tide and three Stars and a num-

ber of Dinghles unchored shortly after midday at at Junk Bay. Although it was expected that the trip back would be lengthy due to lack of wind, conditions improved round about 5 p.m., when a strong breeze sprang up. This preceded a rainstorm which covered Hong Kong and most boats eventually made good time on the beat home.

Conspicuous gallantry It was about lunch time on Sunday when Paul Dalko wan solling Roosalka outside Futimun Pass. His hat blew off into the sea and his boat boy displayed conspicuous gallantry in diving over the side after it. By the time he was hauled abourd again, the Stockport boat boy had successfully spolled the tiffin of two large sharks by beating them to it by a very Bristol R.

One of the most exciting | The Opening Regatta will take niace on October 7. 8 and 10, with eliminating heats on the preceding week-end. Entry forms are posted in the

Yucht Club and will close on September, 17. The third race in the Ladical Summer Series is to be sailed on Saturday, September 3, starting at 3.00 p.m. and it is honed that the usual large turn-out will be
